Abricultural Acsesce Anstitute, Pusa

List of Specimens in the Mycological Herbarium

May, 1921

CALGUITA SUPERINTENDENT GOVERNMENT PRINTING, INDIA 1883

Not for sale.

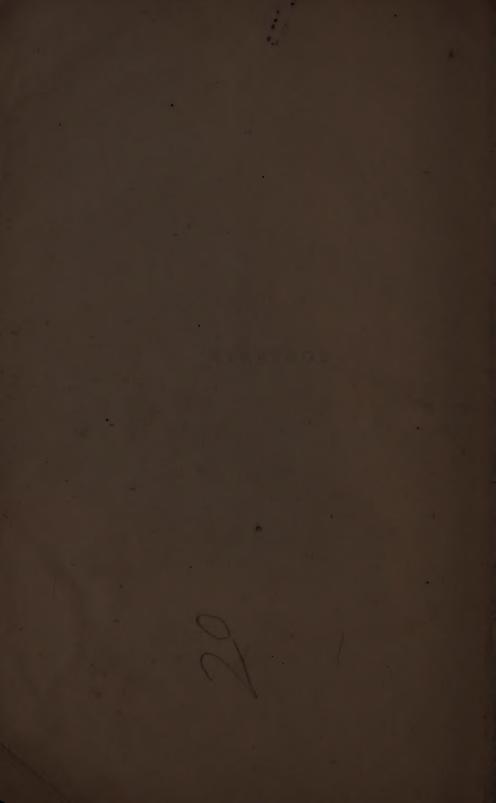

FOREWORD

This list is a record of the fungi in the herbarium at Pusa and includes specimens collected in India and obtained from other countries. It is primarily intended for the convenience and assistance of mycological officers in the various departments of agriculture in India and does not pretend to decide critical points of nomenclature and systematic mycology. Supplementary lists of new specimens added to the herbarium, will be printed from time to time.
